

ANAND A

Senior User Assistance Developer | Software Documentation

8147565461 | anandnr47@gmail.com | linkedin.com/in/anand-athankavil | Portfolio

PROFESSIONAL SUMMARY

Senior User Assistance Developer with 10+ years of experience delivering technical documentation for enterprise SaaS, semiconductor IP, and cloud platforms. Proven ability to own end-to-end documentation — from information architecture and structured DITA authoring to AI-assisted workflows and analytics-driven quality improvement. Deep expertise in API documentation, Swagger/OpenAPI, and cross-functional collaboration with engineering, product, and UX teams. Strong background in structured authoring (DITA, FrameMaker, Oxygen XML) combined with hands-on systems engineering experience that enables fast ramp-up on complex technical domains.

PROFESSIONAL EXPERIENCE

SAP Ariba — User Assistance Developer

March 2022 – Present

- Own and maintain ~400 topics across enterprise procurement products, covering user guides, What's New content, and API documentation for a global customer base.
- Leading agentic AI initiatives for documentation that have gained visibility at the SAP procurement leadership level — scoping and driving adoption of LLM-based workflows to accelerate content delivery.
- Drove analytics-based documentation improvements that increased self-service rates from 62% to 85% and task completion rates from 71% to 90% across the documentation framework.
- Maintained a positive feedback rating of 86% on owned product documentation, consistently sustaining or improving the score each quarter.
- Designed and launched a Qualtrics-based customer feedback form; improvements made in response to feedback raised the product documentation satisfaction score from 3.2 to 4.1, including delivery of a new Getting Started guide.
- Defined and implemented a User Assistance (UA) plan adopted across the full documentation team, standardizing content structure and peer-review workflows.
- Reviewed and improved UI copy, error messages, and peer documentation to align with UX writing standards and product voice.

Synopsys — Senior Technical Writer

May 2019 – March 2022

- Documented Interface IP solutions across PCIe, HDMI 2.1 (Rx/Tx), Ethernet, and USB 3.0 — producing databooks, user guides, installation guides, and release notes for global semiconductor customers.
- Mentored 4 technical writers, each of whom independently took on separate documentation sets — structured training materials that reduced ramp-up time significantly.
- Designed a Visio graphics template adopted team-wide to standardize diagrams across all IP documentation sets, improving visual consistency and reducing per-topic production time.
- Updated DITA style guides, EDD, and DTD to reflect evolving product architecture and authoring tool requirements.

Edgeverve — Technical Writer

May 2018 – May 2019

- Documented Finacle Core Banking Solution (Loans, Wealth Management, LMS) — authored user manuals, release notes, and REST API documentation.
- Increased documentation usage by 20% by creating demo videos and flow diagrams for complex banking workflows.
- Restructured the LMS manual to improve user experience and reduce navigation complexity.

Infosys — Sr. Systems Engineer / Systems Engineer

Oct 2014 – April 2018

- Infrastructure migration consultant for Citizens Financial Group — prepared SRS, BRD, FRD, and migration strategy documents; migrated web, client, and database applications from Windows 2008 to 2012.
- Built internal automation tools to streamline server inventory collection and team onboarding across accounts.

CORE SKILLS

Technical Documentation: User guides, API docs, release notes, What's New, installation guides, databooks

API Documentation: Swagger, OpenAPI, REST API docs

Authoring Tools: Adobe FrameMaker, Oxygen XML Author, Markdown, VBA

Collaboration Tools: Jira, GitHub, SharePoint, Qualtrics

Structured Authoring: DITA, topic-based authoring, EDD, DTD, information architecture

AI & Analytics: LLM-assisted workflows, content analytics, feedback-driven optimization

UX & Content Design: UI text review, error messages, flow diagrams, demo videos (Camtasia)

Cross-functional: Engineering reviews, stakeholder alignment, mentoring, style guide ownership

EDUCATION

Master of Technology — Embedded Systems

Amrita School of Engineering | 2012–2014 | CGPA: 8.56

Bachelor of Technology — Electronics and Communication Engineering

Dr NGP Institute of Technology | 2008–2012 | CGPA: 8.4

CERTIFICATIONS

- BULATS English Test — University of Cambridge
